Larry English - NFL San Diego Chargers - Larry was referred to me a few months ago by Todd Durkin. Larry was the Chargers first round draft pick on 2009. The last two years he has been sidelined with a hairline fracture in the 5th metatarsal in his left foot that would not heal. Within a couple month, PEMF therapy healed his foot. He is now 100% and running wild sacking QBs. I still work on him almost weekly. If he gets through the season, PEMF will get quite a bit of recognition.

Christian Craig - Pro motocross racer - Christian had a broken bone in his wrist that wasn't healing. He was scheduled for surgery to remove the bone. I asked him to give me two weeks to treat him with PEMF therapy. In that time I pulsed him 1 hour per day, 5 days a week and his bone healed.

Chad Reed - Pro motocross racer - Chad crashed and tore his ACL and broke his fibula. He was scheduled for surgery, however his swelling was going to delay it. I started working on him 4 days prior and was able to reduce his swelling approximately 80%. Chad has his surgery as planned.
